

ASSIGNMENT

API Link:

http://api.themoviedb.org/3/trending/all/week?api_key=9fcf7a3dcf6947a420682da4c7f85220&language=en-US

The above API is a json object containing trending movies of the week.

TASK:

Create a html-css application to show

1. Image
2. Overview of the movie
3. Title.

NOTE:

1. The API provided uses an api key, use .env to save the api key.
2. Try making interactive and unique UI.

Once the project is complete, create a separate repository in github and push the code.
